

**U.S. COAST GUARD AUXILIARY
District Eleven North Region
DIVISION COMMANDER REPORT**

To: Dean McFarren, Commodore
Cc: District Board and Staff
From: Phil Mammano, Division Commander

April 21, 2021

Division: 113-08

HIGHLIGHTS:

Our Division meeting was preceded by Security Fundamentals.

Flotilla 87, Mendocino:

Operations continue as normal recirculation of the fuel farm at Point Arena.

Lamp room cleaning not performed as scheduled:

The first was handled by nature washing them for us.

The second skipped as the participants were ill-feeling after their second covid vaccinations.

Our flotilla meeting held on-line.

Flotilla 88, Lake County:

We have a new member on board, Mr. Art Martinez.

Still prepping for virtual NSBW activities.

Planning for Operations; getting risk forms submitted and choosing bubbles. Pushing filing of risk assessment forms and bloodborne pathogens training.

PV activity is steady and VE activity is ramping up.

Flotilla 8-11, Crescent City:

The CGC Dorado departed on her final Coast Guard voyage last week. The Flotilla anxiously awaits news of their fate in terms of their response boat and shoreside facilities.

Flotilla 8-39, The Thirty Niners:

The Thirty Niners are gearing up to resume operations by getting current on requirements such as risk forms, BBP, and bubbles.

PROJECTS:

1. Bringing AP members into BQ status
2. Getting members current with CORE Training

CHALLENGES/OBSTACLES/OPPORTUNITIES:

Greatest challenge is generational attrition. The opportunity is to focus on recruiting age diverse members.
