DETAILS:

1. **Station Vallejo Ribbon Cutting (FL52)** – After multiple delays, the official Ribbon Cutting for the brand USCG Station Vallejo is scheduled for Friday, September 16. USCG Station Vallejo shipmates have completed their move into their new facility. Flotilla 52 completed their first meeting at the new station and also received a tour. All were impressed. FYI – BOSN Holt is assigned as temporary OIC. BOSN Holt has worked with the Auxiliary for several years in Florida and shared his working philosophy with the Aux team.
2. **Scouting with the Sea Scouts (FL53)** - FSO-AS (Auxiliary Sea Scout Youth Program) Wade MacAdam continues to partner with the local Sea Scouts skipper. Wade's main responsibilities is to collaborate, support and train with the team including the support of the recently completed all day training event on the Sea Scout Ship MSS Odyssey. Training included, cold water survival, proper usage and handling of pyro, water rescue and fire suppression. Bravo Zulu to Wade and the Sea Scouts.
3. **A Special Day (All)** – Kit Galvin Flotilla Commander had a very special day. Kit was nominated and selected to represent the PacArea Auxiliary at the July 7th Admiral Fagan All-Hands/Meet & Greet event. Kit has a long list of accomplishments, understands the mission of the Auxiliary and puts that into practice on a daily basis. After receiving Admiral Fagan's personal Challenge Coin, Kit commented "We don't get paid for what we do but sometimes we get a paycheck...and I'd say this is a pretty good one."
4. **Mission Accomplished (FL51,FL52, FL53, FL55, DIV 5)** – After months of classroom and on the water training, along with being able to properly demonstrate the many requirements to become Crew, the culmination of all this occurred at the 2022 Div. 5 OPTREX at the very end of July. Congratulations to 4 new crew members, 1 crew and 1 coxswain requal and 1 new crew member that qualified elsewhere. A special thanks to the QE team of Bill Stolz, DCOS Curtis Han and COMO Mike Maddox and Tommy Holtzman that provided COMMS. Bravo Zulu to the entire training and support team of Auxiliarists and Active Duty from Sta. Vallejo.
5. **AUC is the Key (FL55)** – How do you meet the pledge of "You are expected to promote closer liaison between the Auxiliary and local Coast Guard units"? Use the AUC key to unlock the door. AUC John Guaraglia has opened the door. As a result, Flotilla 55 had four (4) guests from Sta. Bodega Bay with lots of information to share. Attending was Station Chief Ben Corbisiero, Engineering Petty Officer Carlos Arroyo, Executive Petty Officer Tony Kopshever and Boatswain Mate II Harrison Rabalais. Along with that, Auxiliary and Active Duty worked together to support an Uninspected Passenger Vessel (UPV) safety checks event. Finally, 2-boat training is being scheduled. This is demonstrated success of the value and power of an Auxiliary Unit Coordinator.

6. Leadership Challenges (FL51) – Flotilla 51 Commander Steve Johnson has been in many leadership roles over the years. He was challenged this year with the lack of shipmates stepping up to take on leadership roles in 2023. Frustrated but not giving in, Steve skillfully met with his Flotilla, expressed the importance of moving Flotilla 51 forward with strong leadership and commitment to rebuild the Flotilla. Thankfully Steve was persuasive and compelling that his shipmates have stepped up to support 2023. Bravo Zulu to Steve and 2023 leadership.

7. BRAVO ZULU:

- Rhoda Jones (FL53) – Completed AUX-10 C-School (Information Services) in Orlando, FL
- Morgan Curtis (FL53) – SWB Deployment
- Bob Schabert (FL53) - is now certified as Public Affairs Specialist II
- John Guaraglia (FL55) – Building a closer relationship with Sta. Bodega Bay as the AUC. Special thanks to Sta. Vallejo AUC Glenn Hunter for his mentorship and support.
- Erik Paananen, Dinia Paananen, Thomas Sarnicola, Glenn Hunter and Frank Capurro for during a presentation on Boating Safety for 40 children in Saint Helena. Teach them young and we will create lifelong safe boaters and respect for the water.
