We Program Visitors are key to informing the Boating Community on everything from basic safety on the water to better methods in maintaining Situational Awareness. We pass training opportunities and interact in many other informative ways, limited only by our imagination. Though we have no way to gauge quantitative results in the field, we have a very real and positive impact on RBS safety. I am extremely proud of your ongoing efforts and note our progress in support of our PV program as seen by last years data and your personal comments. As part of your team, I stand ready to both support your work as well as listen to ANY suggestions you may have to improve or sustain our program. Warmest regards, Rick
