Division 12 – Nikolay Zherebnenkov II	Reported	NR	PV's

**check actual YTD Auxdata in above box for accurate YTD count*

One of this years goals is qualifying many of you to receive the RBS device, a visible achievement symbol of your work in boating safety. Few are seen wearing this device, yet qualifying is quite easy; basically each visit counts as well as each vessel exam given. Both

*programs complement each other. One hundred twenty points each year for two years, totaling 240 pts in two years will qualify you. PA and PE missions also add to the points required. **All SO-PV's – Please pass this info to your Division Flotillas!***

We Program Visitors are key to informing the Boating Community on everything from basic safety on the water to better methods in maintaining Situational Awareness. We pass training opportunities and interact in many other informative ways, limited only by imagination. As part of your team, I stand ready to both support your work as well as listen to ANY suggestions you may have to improve or sustain our program.

Free Aquatic Invasive Species (AIS) Prevention Workshops For California Waterways Users **see flier below, help our Marinas cope!*

Century Club Members Congratulations to the following members who completed 100-plus PV Visits in 2017 or 2018:

We have 0 members of the 2018 Century Club (yet!)

FREE Aquatic Invasive Species Prevention Workshops

The **California State Parks' Division of Boating and Waterways**, **California Coastal Commission's Boating Clean & Green Program**, **California Department of Fish and Wildlife**, and the **U.S. Fish and Wildlife Service** invite you to participate in our **FREE Aquatic Invasive Species (AIS) Prevention Workshops**.

PURPOSE

AIS pose serious threats to water delivery systems, hydroelectric facilities, agriculture, boating, fishing, and the environment. Recreational activities, including boating and fishing, can spread AIS from infested waters to uninfested waters. Therefore, everyone accessing waters should take simple actions to avoid spreading AIS each time they leave a waterbody.

Participants in these workshops will:

- ✓ Gain an understanding of the impacts AIS have on the economy and environment
- ✓ Learn to recognize AIS in their region
- ✓ Learn how to take action and prevent spreading AIS by inspecting and cleaning equipment and watercraft

WORKSHOPS

San Jose

Date: Wednesday, April 4th, 2018 (You must register to attend by Monday, March 30)

Time: 8:45 a.m. - 2:45 p.m.
