

Date: 14JUL2018
 From: DSO-OP Stolz & OTO Leavell
 Subject: Surface Response Report for JULY, 2018

1. OTO Message
2. 30 June deadline for the OPS WKS
3. OPTREX Schedule, updated 07JUL2018

1. I've been seeing some excellent work in the field this year regarding training, OPTREX's and operational activity. Some great mission support going on including some pretty good cases. That's what it's all about folks. This is why we train and why we are here...and it shows in how you conduct yourselves on the water and off. I want to applaud everyone out there in Eleven North, from the commodore on down to the newest member at the deck plate level. You continue to make me proud and remind me why I chose this jib. Semper Paratus!

V/R

BOSN Leavell

2. The 2018 OPS Workshop was due 30JUN2018, not the end of the year. Anyone that missed that date is now in REWK. I hope these individuals will complete this training ASAP.

3. OPTREX schedule

Remember this is a dynamic document so check for changes each month and also check the District calendar for the latest information.
