1. THE VERIFYING PRIVATE AIDS SEASON HAS ONLY 26 DAYS LEFT:

WE ONLY HAVE UNTIL SEPTEMBER 30th TO COMPLETE OUR 2018 GOAL THIS SEASON!

How is your Division doing so far? Well, that’s what this report/bulletin is all about. Each year, we have only until September 30th to perform our Coast Guard assigned field work and August is now over. As of the end of August we completed **71%** of meeting our 2018 Annual assignments goal. Our annual challenge & goal is 100%. Each year the Auxiliary commits to verifying 100% of the total assigned private aids in Eleventh District. While this is called an objective, in actuality, it is much more than that. Mainly because, if we don’t complete this assignments, the D11 (dpw) are held responsible to complete them for us. So far, we have not failed the Coast Guard.

It is important to understand that Navigation Systems provides a multi-faceted program each year that breaks down into four main categories.

- 1. Annual Bridge Survey Plan.** Bridges may be surveyed all year with focus on the spring months. 2018 is 100% Completed.
- 2. Annual Private Aid Verifications Plan.** This program has a basic seven month window for completion 100%. To date we have verified **546** out of 766 or **71%** in 2018. Just **221** to go.
- 3. The “Unauthorized Aid” Program Plan.** It is important to identify these aids and report them to the Coast Guard. Many of the unauthorized private aids have been identified or converted to a permitted PATONs. To date we have reported **29** non-permitted private aids in 2018.
- 4. Chart Updating Program.** It is upon us to make sure that our charts & coast pilot is accurate for the safety of the boating public. It’s important and our obligation when we see or find errors to our charts or coast pilot to report them to NOAA.

Check page 2 to see what AUXDATA has recorded for division & individual for your Navigation Systems activity to date. District wide we have only recorded 60% of our NS activity to date.
