District 11N DSO-PV Report for the month of Januray 2019

This year National has set a goal of increasing our Program Visits by 2%. We as a District believe that we can achieve the that goal too. The more information we can get into the hands of our boating public, the more accidents and deaths we can prevent! We will be tracking our progress through out this year both on a District level and on a Division level.

Division Commanders, please encourage your SO-PV officers to work with your FSO-PV counter parts to encourage accurate and timely reporting of their activities. Also there will be a reminder email sent out all Program Visitors about how to enter their time and visits, you will be BCC on the email so you are kept in the loop.

The symbiotic relationship between PV, VSC, PE and PA strengthens all four of these core tasks. We Program Visitors are key to informing the Boating Community on everything from basic safety on the water to better methods in maintaining Situational Awareness. We pass training opportunities and interact in many other informative ways, limited only by imagination. ANY suggestions you may have to improve or sustain our program send them to dso-pv@d11nuscgaux.info

Respectfully Submitted.
