District 11N DSO-PV Report for the month of February 2019

We had slow start this year but the visits are starting to happen. The most important part of the Partner Visitation program is getting the Recreational Boating Safety (RBS) information into the hands of the boaters. Our best way know if this is working is by how much material is needing to be replaced. This is one reason why we need to report our activities into Auxdata.

The first column in the table (below) is new and shows the number of visits reported to the SO-PV and the second column if from Auxdata via Auxinfo. The challenge is getting the two to match via reporting via form 7046. We need to encourage our visitors to report their visits.

Reported via AuxInfo

The symbiotic relationship between PV, VSC, PE and PA strengthens all four of these core tasks. We Program Visitors are key to informing the Boating Community on everything from basic safety on the water to better methods in maintaining Situational Awareness. We pass training opportunities and interact in many other informative ways, limited only by imagination. ANY suggestions you may have to improve or sustain our program send them to dso-pv@d11nuscgaux.info

Respectfully Submitted.
