-This is a reminder that if you have not completed the Introduction to Risk Management course #100202 by 30 April 2019, you are now in REYR.

You must take the course to be removed from REYR status before any credit can be given for your VSC activities. The course is not a pass or fail course, and it takes 90 minutes and using AUXLMS will automatically record the course. If you've never logged into AUXLMS, here is a link to instructions and video:

<http://wow.uscgaux.info/content.php?unit=T-DEPT&category=auxlms>. To access either, you must click on the word "here" and you will need to create 14 character password. Please do not delay if you plan to participate in NSBW activities. If you require additional assistance, please contact your FC or FSO-MT. VE Test Question Answers 1. "A" pg 1-5 2. "A" pg 5-2

-For Coast Guard liability insurance purposes, **PRIOR** to leaving the house for **ANY** VSC activity other than to participate at an organized station, **PLEASE** remember to notify member of the flotilla leadership (FC, VFC, and FSO-VE) of your planned activity. The notification could be in the form of an email, text message or a phone call. In the unlikely event of an incident, be prepared to provide proof of the notification. In addition, per the new VSC Manual please remember, you also need to be in uniform and if boarding a vessel you need to be wearing a lifejacket.

-PLEASE do NOT wear boots to climb aboard a vessel to perform a VSC. Our program allows for deck shoes, white or black tennis/walking with soft soles. If this is not an option, please consider purchasing disposal shoe/boot covers available at any the paint or hardware dept. or at Wal-Mart, Lowes, Home Depot, etc. A package of 6 is typically under \$10.

DID YOU KNOW that 85% of the earth's planet life is found in the ocean!

Let's work together for our safety and the safety of others by setting an example and wear our lifejackets while performing VSC's especially when working around docks and when climbing aboard large vessels!
