

# Communication Services (CS) Report February 2020

U. S. Department of  
Homeland Security  
United States  
Coast Guard Auxiliary

Communication Services  
District 11 Northern Region  
Supporting Utah, Nevada,  
and Northern California

## IN THIS REPORT:

- New WoW Webmaster for 2020
- It's Time to Clean House
- District Internet Cloud Price Changing
- 

## REPORT DETAILS:

### New WoW Webmaster for 2020

BK Barr has taking on the assignment of our Webmaster for 2020. He will have complete jurisdiction over the site and all content posted there on. BK has proven his ability over the years working as a ADSO-CS Developer. All requests for changes and new topics may now be sent to him. Send all Wow changes to [webmaster@d11nuscgaux.info](mailto:webmaster@d11nuscgaux.info).

### It's Time to Clean House

The space on our District cloud (file storage) is filling up. It's time to clean up old files. This includes old email files as well.

At this time we are not at risk but if we don't start cleaning up old unused files now we will soon run out and our cloud will lock up. This would lock up our District email as will. So I'm asking all District CS team members to look over your uploaded files and delete any outdated ones. Thanks.

### District Internet Cloud Price Changing

InMotion Hosting is changing the price we are paying for out Cloud storage space. This will only change our yearly cost by a small amount.

The filesystem "/" mounted at "/" reached "warn" status because you currently use 84.3% of its available blocks.

Reliable Performance.  
Unmatched Support.

#### Important notice about your VPS account - Pricing Change

**We have been notified by cPanel that it will be converting to a new pricing and licensing structure that will affect all InMotion Hosting accounts.**

Dear DSO-CS,

Recently, cPanel announced a new pricing and licensing structure that shifted from an unlimited usage to a usage-based structure. This change will result in pricing increases for all website hosting providers and consumers that use cPanel.

With the change, cPanel has eliminated our ability to offer unlimited cPanel accounts for any of our hosting plans, thus forcing us to increase the base cost by \$5 per month for all managed VPS hosting plans.

All existing VPS hosting plans will incur a \$5 per month cost increase beginning with your first scheduled renewal occurring after January 31, 2020.

Additionally, you may incur additional monthly charges based on the number of cPanel accounts hosted on your VPS. The additional monthly cost for a cPanel license will not be applied to your account until the next renewal date of your hosting plan after January 31, 2020.

By default, you may host up to five (5) cPanel accounts on your server at no additional cost. Once you exceed five accounts, you will be charged an additional monthly fee based on the following usage tiers:

Number of cPanel Accounts	Monthly Fee
0 - 5 Accounts	No Charge
Up to 30 Accounts	\$5/mo
Up to 50 Accounts	\$8/mo
Up to 100 Accounts	\$15/mo
Up to 150 Accounts	\$20/mo
