

10 March 2020

TO: Board and Staff

FROM: Larry Olson, DSO-AV

SUBJECT: AuxAir Monthly Report for February 2020.

We continue with our training program to bring on new observers, aircrew, and pilots. We have three people in flight training for Observer and we have two current Observers in training to become Aircrew qualified. Additionally, we have two current pilots in training to be certified as Aux Pilots. We, also, have several more auxiliaries who are working on their preliminary exams or waiting for their DO clearances to come through.

We have our next Aviation Safety Workshop and swim qualification scheduled for Saturday, 11 April 2020, at Coast Guard Island. We, also, plan to host a swim qualification event on Friday morning, 10 April 2020, to start at 0900 at the CGI pool. As always, we are happy to include boat crew auxiliaries that need their swim test. Auxiliaries need a medical clearance form in order to take the swim test.

We, also, have our next Squadron Dinner/Meeting scheduled for Tuesday evening, 31 March 2020, at the Holiday Inn, Dublin.

At this time I am not sure if these events could be cancelled due to the Coronavirus concerns.

Otherwise, we continue to fly missions in support of the Coast Guard, the Auxiliary, and our allied agencies.

Respectfully submitted,
Larry Olson
DSO-AV
