Re: Activity in March to April 15, 2020

Activity

- Comms with AUXLO Jimmy Cruz by email
- Received communications from Captain's Byrd and Wright concerning the ALL Hands virtual meetings on Fridays.
- ADM. Gautier related that 3 infected crew were infect with coronavirus. The vessel was cleaned and is now successfully back in operation.
- Received comms from the AUC's in the various Station AOR's reporting on email contact with their Stations. I would like to encourage more info being sent to me by the AUC's.
- All direct activity has been suspended until further notice

We all will be relieved when this challenge is behind us and we are once again being of useful support to Active Duty Missions.

EOR
