Question: Have you submitted your Navigation Systems 7030 reports and your name is not on the table above? Is the data above incorrect? If so, then you have not submitted a 7030 or all of your 7030's for your Navigation Systems activity to be entered by your FSO-IS. You may now enter your own Navigation Systems mission 30-31-32 into AUXDATA II if you know how. You still can submit all your 7030's for your Navigation Systems mission 30-31-32 activities to your "IS" Officer. For any 7030 problems, questions or answers check with your "IS" Officer. The FSO-IS, SO-IS & DSO-IS is the only members that can enter or make some changes to your Navigation Systems activity in AUXDATA II.

NOTE: All Navigation Systems activity awards for this year and AV certifications for next year is taken from AUXDATA information. **Do to COVID-19 no AV annual maintenance certifications will not be lost this year and you will be good for 2021.** Remember the old saying "If it's not in AUXDATA it didn't happen." That is why you should always check the table above each month. So, this way you can see that if you have not reported your NS activity (7030) to your FSO-IS or they have not entered your NS activity incorrectly you have time for them to correct your information into AUXDATA. The FSO-IS or SO-IS is the only member that can enter and correct your Navigation Systems activity into AUXDATA and only you can let the FSO-IS or SO-IS if the data information is incorrect.

AUXDATA I & II real time “NS mission codes 30, 31 & 32” is in this report”
