Re: ASC-SF Activity Report for December/January

#### Activity at Sector San Francisco

- SLT meetings are held by phone conference till an improvement in Covid-19 infections occur.
- Sector Commander, Deputy, and AUXLO's have attended all Division COW's that have been held. BZ to all of them.
- Offer of First Aid/CPR Instruction has been given through the Sector for any Unit, Department or Branch that desires the course. AUC's, please note, contact me if your unit requests the course. The offer was sent out through the Sector Deputy Commander.
- Sector would like to encourage Auxiliary to promote the Paddle Smart-Paddle Safe Campaign once again. This has amounted to about 8% of the SAR caseload. However, the Coast Guard does not provide If Found stickers for the program. Those must be ordered through the Auxiliary ANSC. If the Active Duty would like a supply they should work with the DIRAUX office.
- Funneled questions regarding Vessel Inspections and various other questions to the appropriate POC at Sector.
