Re: Publications Report for your February Meeting
Date: 9 February 2022

Thanks to all who contributed to this last issue of *Northwind*, which you should have received via email recently. I especially appreciate Tiffany Townsend, Vicki Hudson, and Roger Bazeley for helping ensure there was enough content. DCDRs, please encourage your people to submit articles, and fellow DSOs, please consider submitting something from your department. And, everyone, have a look at the Spotlight Question – no one has sent in the correct answer yet!

We are taking special care to make sure that photographs that appear in *Northwind* include a date and/or a statement about Covid-compliance so that any photos of unmasked people have a caption that explains that 1) the people in the photo are complying with regulations or 2) the photo was taken before regulations were in place.

I hope that, as we anticipate ramping everything back up, one preparatory action Flotilla Commanders and Division Commanders will take will be to appoint Publications officers. Telling our story will become even more interesting as we return to full activity – and it might just be the morale boost that newer members need in order to remain excited about our service.

Peace and all good to you all,

Greg Schaefer
