

**MONTHLY REPORT OF  
INFORMATION SERVICES  
March 2022**

**EVENTS:**

- Anita Farnholtz and Doug Kerr will be supporting an AUXDATA II Help Desk at D-Train. They will be available to answer questions and help members with AUXDATA.
- Monthly sessions with SO-IS and FSO-IS officers will be set up to conduct training and to provide assistance that is needed.

**PROGRAM UPDATES:**

- A system wide AUXDATA II password update was initiated last week. All members are required to change their passwords to meet the new criteria.
- BSX ran a REYR update in January and again on February 16. These updates will now be run on a monthly basis for the “rolling” requirements such as RM/TCT, CRM, NavRules.

**GOALS:**

- To provide more training in AUXDATA II for our members. I will be working with DSO-MT to get some training on the district schedule.
- We will be working to identify the competencies that were migrated in error and get these corrected or archived.
- Training! AUX-10 classes are underway both in person and remotely. IS Officers who are interested in attending a class should contact me to check on availability of seats in the class. There are two in person classes and two classes being taught remotely for this year.

I will be teaching at the AUX-10 C-School and the DSO-IS meetings at N-Train and therefore I will not be able to attend our D-Train.

Respectfully submitted,

Pamela Berger, DSO-IS
