Re: ASC-SF Activity for July 2022

Activity

- Sector had a busy July with promotions, transfers, Unit events, dedications and commercial, private vessel assistance.
- Attended SLT meetings as held
- During July the Auxiliary completed PATON verifications, Helo Ops to help prepare pilots and crews, support for July 4 fireworks and swim events, Auxiliary crew training, QE check rides and Communications training
- Sector continues to have 2022 Fleet Week planning meetings to support the San Francisco Fleet Week Committee, the Blue Angels and other air show events.
- Due to a few Auxiliary OPFACs that will be unavailable this year we may not be able to provide the usual number of vessels for the Fleet Week box.
- For those coming into YBI, the Galley will be closed from 8 Aug to 19 Aug for remodeling
- Two additional activities for Auxiliary to support in Oct will be Oct 1 at Mavericks at the CG/Auxiliary Info and Education Booth at Pillar Point. POC is Louis Sarto of 1-9 if you would like to help in the Booth.
- On 27 Oct a sporting event called the Captain's Cup will be held at Sector YBI. There is a call for Culinary Assistance POC Linda Haynes and Auxiliary members to help with various tasks at the Sport stations. Time keeping, scoring etc.
- AUC Reports show significant Auxiliary support for the many Units at Sector.

Respectfully submitted,
Sue Fry, ASC-SF
