Re: ASC-SF Activity

Activity

- ASC-SF attended SLT meetings as held.
- Sector was particularly busy during October because of the traditional San Francisco Fleet Week activities.
- Auxiliary was also highly involved with Fleet Week Box activity and in charge of communications in the Command Center for the Auxiliary vessels going to and from their Home Base to the assigned space on the Box.
- Sector has assigned a Work Space to the ASC-SF in order to make it easier for Active Duty to find the ASC and request needs of their department. The ASC really appreciates this move.. The space is in Bldg 25 next to a large window overlooking the Parade Grounds.
- The Sector Galley has requested Aux CA help cooking and serving during the work week. Please check to see if your requirements are up to date. Times are not firm, so please indicate if you are interested and for which days. This request relates to being short handed.
- Sector is holding an Inspection, Team Photo, Cookout and Sports Day at YBI on 9 November from 0900 to 1300. Capt Lam is extending Auxiliary members an invitation to attend the Inspection and the Team Photo in SDB uniforms or Business dress. Or to attend the cookout and sports events if desired. Please email the ASC-SF Sue Fry if you plan on attending at sue.fry@sbcglobal.net. Include your member # and if you will stand the Inspection.

Check COMO MrFarren's directions to make sure I got it all right.
I need names by 4 Nov 2022.

Respectfully submitted,
Sue Fry, ASC-SF
