District 11N DSO-PV Report for April 2023

Up nearly 250 visits from last month which shows that the momentum in our District is continuing. Now that the colder divisions in our District are warming up, we encourage the PVs there to get out and visit their partners and make sure that there is plenty of literature for our eager boaters to learn from.

The ANSC distribution center has plethora of great RBS pamphlets (end of report for link). Have your MT or FC place your order and then you can get them out to your boaters. Here is this month's RBS pamphlet spotlights:

3006 PAMPHLET, FEDERAL REQUIREMENTS FOR RECREATIONAL BOATS (BR/AWW) - Contains information about Federal boating laws, equipment requirements, and safety recommendations for recreational vessels. Loaded with charts, graphics, and diagrams, this brochure covers navigational rules, cold water survival, life jacket requirements and America's Waterway Watch info. (MAX 100)

PAMPHLET, YOUR VHF-DSC MARINE RADIO - Very High Frequency Digital Selective Calling / Global Maritime Distress & Safety System (GMDSS) - Includes descriptions of system functions, equipment and capabilities / Emergency DSC Distress Procedures. (MAX 50)

Century Club Members: Congratulations to Nikolay Zhrebnekov for being the first program visitor this year to reach a 100 or visits, he is currently at 150! The Century Club is a special recognition for those who conduct more than 100 Program Visits.

2023 Century Club Members

Every member can be a Recreational Boating Safety Program Visitor in addition with doing any other mission of the Coast Guard and Coast Guard Auxiliary. Being a PV is an additional way we, as Auxiliarists, can help our boating friends and fellow humans to be safe and have fun on the water.

The Auxdata "How to Guides" show an efficient way to report PV visits. The link is at the end of this report.

Our Goals:

- Increase the RBS Program Visits by 2% from 2023
- Have 65% of members report their visits (51 to 60)
- increase the number of total Program Visitors by 10% (92 to 102) current 93.
