D11N CS Projects/Goals:

- Develop a D11N Communications Services Guide for the D11N CS team. The purpose of the Guide is to:
 - Provide guidance, procedures, and information for future District Communications Services team members.
 - Document the various aspects (where to find) of our hosting account (accounting, billing, website management) and the various activities related to D11N hosting services, this includes but not limited to:
 - Identifying and establish central and groups administration accounts for the D11N Communications Services Team.
 - Where to find account information.
 - Identifying and describing what alerts are sent from the hosting services
 - Identifying when backups are performed.
 - Identifying and documenting the D11N directory structure i.e., what the directories are and what information is within those directories
- Determine the retention age for keeping Board and Staff reports, photos, and other related information (files) that is not being used on any D11N web page. How long should these files be kept (e.g., 3, 4, 7, etc.)?
- Clean up the D11N website directory structure: currently there is a lot of related information and content in multiple directories by moving all related content to a central location. Determine what is the status out of date directories on D11N.
- Ensure that the D11N Communications Services Team is involved in the planning aspects that pertain to D-Train and PCA events, when using the RSVPBOOK reservation and ticketing application.
