Subj: Report

Thanks to a stellar team, we put together a great issue of *Northwind*, due out any day now. This issue focuses on the return to in-person service, highlighting the facility *Silver Charm*.

We are adding a few new, recurring features to the publication, including spotlighting a Flotilla, a series on Coast Guard Core Values, and lifting up a particular service (look for an article about AUX-FS this time). All are invited to suggest a Flotilla, a long-serving member, a very new member, an area of service.

I also encourage all to vie for the opportunity to be spotlighted by answering the Spotlight Question in each issue of *Northwind*!

We continue to receive good pictures and articles pertaining to stories people offer for *Northwind*. I hope we will continue to get input from all across the district.

Finally, the most recent few issues of *Northwind* have been added to the Publications page of the website, meaning anyone can find them there.

Wishing you good health and real peace,

Greg Schaefer, DSO-PB
