District 11N DSO-PV Report for Jun 2021

We are doing better but still have a long way to go to get back to pre-COVID visits. Let your members know that they can do multiple visits in one day. It is really easy to get a ATD (assignment to duty) which only has to be done once. Program visits are a one of the key components to RBS (recreation boating safety).

A question came up of what ways are there to report program visits. The answer is two, form a7046 or Auxdata II (AD2) by creating an activity. In AD2 you can report one or many PVs in one activity. A link to the tutorials is at the end of this report. Remember to change your PV activity from New to Requested or nothing will happen.

Flotilla 05-07 reported that they setup a new partner with is a boat rental business. BZ to them for getting a new partner that will see a lot of boaters and paddle craft users. Rental businesses are a great place to get RBS material into the hands of the casual or new boater. It is also great place to do vessel inspections too. Thanks Division 5 for sending in a report on your Program Visitor activities.

Please encourage more of your members to become a Program Visitor, we really cannot have to many. There is a link to the PV manual at the end of this report. The test is 'open book' and done via the testing center.

Century Club Members Phil Mammano is currently our only program visitor to complete 100-plus visits. Looking forward to see who will be the next member to be part of this way cool club.

Our Goal for this year 2021 for the Marine Visit is to increase the marine visits by 2% from 2019 (see the stats chart) since 2020 was a COVID-19 bust.

The first column in the table (above) shows the number of visits reported to the SO-PV. The challenge is getting the two to match via reporting via form 7046. We need to encourage our visitors to report their visits timely.
