Re: ASC-SF activity Report for July 2021

Activity at Sector San Francisco

- Contact with AUXLO LTjg Connell with AD/AUX activity at Sector and outlying units. Again thanks to those AUC's who cc me with their reports. It's a super help in keeping Sector up to date with Aux involvement.
- Attendance at weekly SLT meetings at Sector.
- Sector has set up their ICS Staff for the Fleet Week Coast Guard responsibilities and many planning meetings are taking place at least every two weeks.
- Initial planning for Fleet Week is underway and Auxiliary involvement is guaranteed for "the Box", Communications and Shoreside activity.
- Make sure you wear masks when coming to either CG Island or YBI or any Unit. Have your High Risk form sent to DIRAUX and request activity approval for any new type of activity to the OTO a week in advance.
