District 11N DSO-PV Report for September 2021

The boating season is winding down in some areas of the Division but we still need to be diligent in checking with our Partners to make sure our displays are fully stocked with relevant RBS materials. Whether your area is winding down or not, please get out and make those visits (following local COVID guidelines). Boaters will still take a read our material regardless of the time of year if it is there in front of them.

Please encourage more of your members to become a Program Visitor, we really cannot have to many. There is a link to the PV manual at the end of this report. The test is ‘open book’ and done via the testing center.

Century Club Members Nikolay Zherebnenkov is our newest program visitor to complete 100-plus visits. Welcome to this way cool club.

Number wise we are not quite a quarter of the way to meeting our goal of 2% more visits then 2019. COVID restrictions are most likely the cause still for the lower numbers but also non-reporting too. In some divisions, the reported number of visits is very low or none have been reported. We know that visits are being made so Division Commanders, please encourage you SO-PV to work with your members to have them report the work that they have done.

Our Goal for this year 2021 for the Marine Visit is to increase the marine visits by 2% from 2019 (see the stats chart) since 2020 was a COVID-19 bust.
