District 11N DSO-PV Report for October 2021

Without sounding like a broken record, COVID safety issues seem to still be a factor in our members ability to get out and to the Program Visits like they used to. We encourage our PVs to get out and do their visits but always with safety in mind and following local COVID guidelines.

Please encourage more of your members to become a Program Visitor, we really cannot have to many. There is a link to the PV manual at the end of this report. The test is ‘open book’ and done via the testing center. Once the test is complete, all they need to do is two visits with a currant PV, then they can do their own visits.

Our visits seem to be under reported in ADII. Please, please encourage all your PVs to report their visits. It is easy to do in Auxdata II, all of them can be done on one form.

Century Club Members Karensue Galvin is our newest program visitor to complete 100-plus visits. Welcome to this way cool club and thank you for your service to the boating public.

Number wise we are not quite a quarter of the way to meeting our goal of 2% more visits then 2019. COVID restrictions are most likely the cause still for the lower numbers but also non-reporting too. In some divisions, the reported number of visits is very low or none have been reported. We know that visits are being made so Division Commanders, please encourage you SO-PV to work with your members to have them report the work that they have done.

Our Goal for this year 2021 for the Marine Visit is to increase the marine visits by 2% from 2019 (see the stats chart) since 2020 was a COVID-19 bust.
